JOB TITLE: SERVICE LINE ASSISTANT

LOCATIONS: The company has locations in Colorado, Louisiana, New Mexico, Oklahoma and Wyoming.

ABOUT THE COMPANY:

CUDD ENERGY SERVICES ("CES") is a wholly owned subsidiary of RPC, Inc. (NYSE trading symbol: RES). Cudd is recognized worldwide as a leader in pressure control, and provides a complete line of live well services. These services include; coil tubing, nitrogen, hydraulic workover, wireline, well control and stimulation services. Cudd's reputation for problem solving, innovation and technological leadership is supported by highly experienced professionals who are experts on the inter-workings of everything beneath the surface of a well. They are trained to perform safely and cost-effectively and are backed by thorough engineering support.

ABOUT THE JOB:

Service Line Assistant's learn and apply the policies, standards, operating procedures and activities of the company. They provide assistance to Specialists, Supervisors and other Service Assistants, when needed. They perform tasks that are required for rig up, job execution and rig down, while maintaining constant communication with all personnel. In addition, they assist in maintaining and inspecting service equipment. Another important aspect of their job would be to promote all CES safety programs and Company policies while continually expressing and enforcing the commitment to safety by:

- stopping any work in which a safety hazard has been identified until all affected parties are made aware of the possible hazard and all reasonable measures have been taken to mitigate the hazard;
- keeping current with all required safety training courses; and
- maintaining a safe driving record.

THE REQUIREMENTS:

- Must be legally authorized to work within the United States.
- Must be able to read, write and speak the English language in a manner that enables the employee to communicate effectively and safely in the workplace.
- Must be able to attain a CDL (current CDL is a plus)
- Must be able to climb ladders/stairways to work on service equipment and must be able to lift and carry, for a distance of 50 feet, objects weighing 50 pounds.
- This position requires a high school or trade school education.

WORK CONDITIONS:

Service Line Assistant's work in varied environments and, sometimes, in what may be considered harsh environments. Exposure to extreme temperatures, wind, precipitation, in addition to working at heights may be experienced when working in field or plant locations. In addition, they are required to travel to various geographical areas to perform work.
